

## Specification for Patio Furnishings for Cumberland Mountain State Park

Cumberland Mountain State Park specifications for dining and associated furnishings for outdoor patio.

All furnishings must be commercial grade and able to provide years of durable service in an outdoor setting. Items may be from different products lines, but must form a matching set with virtually indistinguishable finishes. Customer will have final approval on whether the proposed styles, finishes, and color selections meet specifications. Bidders must submit a photo(s) of the proposed items and/or complete specifications on proposed items to include style, color, finish, and fabric if applicable. Delivery is to be made one (1) month from bid award. Items are to be delivered, unpacked, assembled, and placed in their locations on the patio. Packaging materials are to be removed by the vendor and recycled where practical.

One hundred and eighty (180) standard height stackable dining arm chairs in a comfortable, strap style. Frames must be constructed of aluminum and have full circumference welds and a baked on powder coat finish with a clear top coat with a 5 year warranty on the frame and finish. Straps are to be double wrapped with a 3 year warranty and ready access to replacement parts. Chairs are to be fully constructed in the United States. Both frame and straps are to be dark brown. Acceptable models include Tropitone La Scala, Woodard Ramsgate (160417), or equal.
